PLATFORMS

Of Three Political Parties Being Formulated Today In Columbus

Governor Cox Addresses Democratic Convention; Others Also Speak

PROGRESSIVES UNITED

On Suffrage and Prohibition to Which They Stand Committed While Older Parties Will Make No Declaration Either for Or Against.

(ASSOCIATED PRESS TELEGRAM) Columbus, Aug. 25.—When the Democratic, Republican and Progressive state platform conventions convened here today, only the Progressives were prepared without an internal fight to take a stand favoring the woman suffrage and prohibition proposed state amendments, which are considered the main issues in the fall campaign for election of state, congressional and senatorial tickets.

After informal preliminary conference last night Democratic leaders said today they expected their convention to adopt a platform endorsing the Democratic administration's legislative program for the last two years, including inauguration of the saloon license system, and praising the administration of President Wilson. Probably no mention of suffrage or prohibition will be made.

Warren G. Harding, Republican candidate for United States senator, was expected to lead a fight for endorsement by his party of President Wilson's foreign policy. The Republicans were prepared to adopt planks declaring protective tariff strongly for an establishment of a merchant marine.

Ohio suffrage leaders besieged delegates to the Republican and Democratic conventions with appeals to champion their cause.

Indications were that the Republicans might not complete the draft of their platform until tomorrow. Others expected to finish today.

SAVAGE

And Unwarranted Attack Made By Germany Upon Belgium

In Spite of Assurances of Good Will and Treaty Obligations

MAKING UNEQUAL FIGHT

But She Will Never Stoop to Infringe the Laws and Customs of Civilized and Legitimate Warfare, is Statement of Belgian Minister in London.

(ASSOCIATED PRESS TELEGRAM) London, Aug. 25.—2:20 P. M.—The following announcement was given out today by the official information bureau:

"The Belgian minister in London has made the following statement: 'In spite of solemn assurances of good will and treaty obligations of long standing, Germany has made a savage and utterly unwarranted attack on Belgium. However, sore pressed we may be, Belgium will never fight unfairly; she never will stoop to infringe the laws and customs of legitimate warfare. She is putting up a brave fight against overwhelming odds. She may be beaten, she may be crushed, but to quote the words of our noble king, she never will be enslaved.'

"When German troops invaded our country the Belgian government issued a public statement which was placed in every town, village and hamlet, warning all civilians to abstain scrupulously from hostile action against the troops of the enemy and the Belgian press has daily published similar notices broadcast through the land."

"Nevertheless the German authorities have issued statements lately containing grave imputations against the attitude of the Belgian population, and threatening us at the same time with dire reprisals."

"These imputations are contrary to the real facts and as to threats of future vengeance, no menace of odious reprisals on the part of the German troops will deter the Belgian government from protesting before the civilized world against the fearful atrocious crimes committed fully and deliberately by the invading hosts against helpless non-combatants, old men, women and children."

"Long is the list of outrages committed by the German troops."

"The appalling details of these atrocities are vouched for by a committee of inquiry recently formed by the Belgian minister of justice and presided over by him. This committee comprises the highest judicial and university authorities of Belgium such as Chief Justice Van Iseghem, Judge Nys, Professors Cotter, Wodon, etc."

Come What May to France, Russia and England Will Never Surrender to Germany

(ASSOCIATED PRESS TELEGRAM) London, Aug. 25.—"The Times" says it is one of the inexplicable events which makes war the gamble that it is. That Namur should have fallen in two days will require a great deal of explanation, the Times adds. The military expert says that it is too early to say that the line of the Meuse south of Mezieres must be abandoned, but the outlook is not favorable and the development of the situation in the next few days will be watched with legitimate anxiety.

"There are reports that the townspeople and even the garrison of Namur were less well disposed than the men of Liege to offer a strenuous resistance and so bring upon their town the punishment meted out by Germans to Liege. There is undoubtedly some slight feeling among Belgians that they have not been adequately supported by the allies and that they have borne the whole brunt of the war in the north, but we cannot believe that the Belgians did less than their duty and we expect to hear that they were attacked by overpowering numbers."

"The possession of Namur was vital for Germany and it was a fine stroke for the Germans to have rushed the place under the eyes of the allied armies. We still hope and be-

lieve that our counter offensive in the north is only postponed and not abandoned."

Commenting on the loss of the Belgian stronghold the Chronicle says: "England and Russia must stubbornly resolve that come what may to France, they will never surrender to Germany but will stick to her as they stuck to Napoleon until they pull her down. As long as we hold the sea we cannot ourselves be vitally struck."

"The news today is decidedly bad" adding that if the allies' losses have been heavy, we may yet see before long the Germans march in earnest upon Paris.

"Namur is a fortress of great strength which its defenders could possibly hold several months. We do not imagine that it was taken by a rush. More probably a breach made elsewhere in the line of the allies imposed on them the alternative of leaving a large force to be invested in Namur, or withdrawing from it altogether. The brunt of the act remains that in a really first class battle, the French troops, occupying a secluded position of singular strength were driven out by the Germans after not more than two days' fighting. This speaks volumes for the power of the German attack."

CONCERTED ADVANCE ON PARIS BY ALL GERMAN ARMIES WILL PROBABLY BE NEXT WAR MOVE

(ASSOCIATED PRESS TELEGRAM) Washington, Aug. 25.—A concentric advance of all the German armies toward Paris is probable, the Semois river, Longwy, and the greater part of the Belgian-French frontier being in German hands, according to a wireless dispatch to the German embassy from its foreign office received today at Sayville, L. I., it says: "The German troops facing the French troops defeated them in battle from Aug. 17 to 21. Numerous ensigns, more than 150 guns and 10,000 prisoners have been captured. Laneville has been taken and the army of General Joffre broken up, and is no more capable of action."

"The German crown prince's army has chased the French west of Longwy. The army of the Duke of Wuertemberg, marching through Belgium, has crossed the river Semois, completely crushing the advancing French army. Numerous guns, ensigns, prisoners and several generals were captured."

"The German troops advancing west of the river Meuse towards Maubeuge, defeated an English cavalry brigade. The river Semois, Longwy, and the greater part of the Belgio-French frontier are in hands of the Germans. A concentric advance of all the German army toward Paris is probable."

The German foreign office also advised the embassy that Assistant Secretary Breckenridge of the war department, who went on the cruiser Tennessee to aid in distributing funds to Americans, "praises the attitude of the German people toward Americans and declared it a duty to inform Americans of the victorious German armies and of the excellent spirit of the German nation."

Tentative Democratic Platform

Columbus, Aug. 25.—After being in session a short time the resolutions committee reported the tentative draft of the platform which was adopted.

"We endorse the wise statesman-like administration of Governor Cox; we stand by each and all of the laws enacted by the Democratic general assembly," the platform declares.

No reference is made to either woman suffrage or the liquor question in the platform. It praises the administration of President Wilson and the work of the Democratic representatives in the house and senate and recommends that congress enact a workmen's compensation law for the nation similar to that in effect in Ohio.

Big ovations were given Governor Cox, Senator Pomerene, Attorney General T. S. Hogan, candidate for senator, and former Governor James E. Campbell, chairman of the convention.

EAST PRUSSIA DEFENSES ARE IN FOUR LINES

(ASSOCIATED PRESS TELEGRAM) London, Aug. 25.—4:20 A. M.—A dispatch to the Daily Mail from St. Petersburg says:

"The German defense in east Prussia is based on four parallel and strongly fortified lines running north and south. Each is supported by natural obstacles. The foremost three lines are distinct groups of numerous lakes. The fourth and strongest defence line is the Vistula River, extending from the Russian frontier to the Baltic."

"Outside these defense lines the Germans have on the northeast the very strong fortress of Konigsberg with the fortified advance positions at Libau and Tapia. This is situated on the flank of the Russian line. The foremost three defense lines are extensively fortified. There are important and permanent fortifications at Alenstein and Boyen, and the whole is filled with lakes, leaving only comparatively narrow defiles for the advancing troops. The country is full of fortifications."

VIENNA TO BE FORTIFIED BY THE AUSTRIANS

(ASSOCIATED PRESS TELEGRAM) Paris, Aug. 25.—A Fourmiller's agency dispatch from Rome says that an official message from Vienna states Emperor Francis Joseph has signed a decree ordering the capital to be put in a state of defense.

Travelers from Trieste state that the Austrians are concentrating for the defense of the Adriatic at Pola and Sebenico. The population of the latter have been sent inland. All the Austrian fleet has been assembled in the Fasana canal at Pola.

AIRSHIP FIRED UPON AND IS BROUGHT DOWN

London, Aug. 25, 1:30 P. M.—The correspondent at Antwerp of the Evening News telegraphs that a Zeppelin airship, which flew over Antwerp last night was brought down by Belgian artillery fire at Hemixem, 4 miles outside Antwerp. The crew of 15 men was taken prisoners.

GERMANS FIRE VILLAGES AND BOMBARD CITY

(ASSOCIATED PRESS TELEGRAM) London, Aug. 25.—A dispatch to the Daily News from Paris says that Germans bombarded Charleroi between noon and 2 o'clock Saturday. They came into the town by way of the left bank of the Sambre river. That same evening French troops arrived but as the Germans kept up a fire from the houses in the lower part of the town, the French were forced to bombard it and that portion of the place was soon in flames.

On the same day the Germans set fire to a whole series of outlying villages, destroying Marchiennes, Moncau Cur Sambre, Anderlues and Chaleet.

SERBIA TO GIVE NO QUARTER TO HER ENEMIES

(ASSOCIATED PRESS TELEGRAM) Paris, Aug. 25.—Via London 1:15 P. M.—That Serbia is preparing to wage a war of no quarter to her enemies is indicated in a note sent by Serbia to the French government protesting against the alleged order from the headquarters of the Austrian army to burn Serbian crops and to fire Serbian villages all along the Austrian line of March.

This note says further that in view of Austrian cruelties to Serbian troops, it will be very difficult to restrain the Serbians from measures of revenge, and that the Serbian government finds itself constrained to take all measures of reprisal compatible with international law.

Blow Struck That May Cause Retreat Of the Three Armies

Rapidity of the Taking of These Modern Fortifications Causes Alarm in Both London and Paris, Where Defeat is Admitted

RUSSIANS ADVANCING IN EASTERN PART OF PRUSSIA

Victories of German Arms In West May Be More Complete Than Reports Now Indicate, and Result In a Concentric Movement Toward French Capital.

Namur, the Belgian fortress, has fallen into German hands, according to an announcement made by the official press bureau in London. Details of the fighting around the fortress were not given but the English newspapers regard the fall as inexplicable.

Berlin despatches say five of the forts of Namur and the city itself have fallen and that the capture of the remaining four forts is imminent.

A reverse to the forces of the allies is generally admitted by the English and French newspapers, which say today's news is "decidedly bad." While plainly expressing disappointment at the failure of their forces, they declare the retrograde movement toward the line of strong defensive works near the frontier has been carried out in good order.

It is assumed that the allies are falling back on their first line of defensive works running from Maubegue, in a southeasterly direction by way of Hison, Mezieres, Montmedy, Verdun, St. Mihiel, Toul and Epinal, all of which are strong fortresses and are interspersed with smaller works such as Lianville, Cironville and Jouy-Sous-Les Cotes. Behind these lines another strong line of fortifications from St. Quentin in the north through Laon and Reims to the Great entrenched camp at Chalons.

The English newspapers declare that both the English and Russians are determined to "fight to a finish" whatever the outlook may be at present. They say the possession of Namur was vital for Germany and that it "was a fine stroke for the Germans to have rushed the place under the eyes of the allied armies."

In other parts of Belgium fighting is still in progress, and a report from Ostend says 30,000 Germans have attacked Malines, 13 miles from Antwerp.

Charleroi also has been the scene of hot fighting, this time between the French and German troops and a fresh encounter is believed to have begun there today.

The Commercial Cable Company announced at New York today that code cablegrams may now be accepted for Japan subject to censorship and sender's risk.

Twenty-five thousand Germans have been surrounded between Courtrai and Anseghem, according to an Ostend despatch to the London Daily Express.

Brussels has been left by the main body of German troops, who have proceeded on their way to the front.

Russia reports the advance of the Russian armies in eastern Prussia and the surprisingly rapid movement of the troops. Russian officials, however, caution against feeling to great elation over the preliminary successes, pointing out that the German territory about the Vistula is strongly fortified along the line of the Russian forward march.

Newspaper despatches assert that the Austrian fortified port of Cattaro, Dalmatia has been destroyed by the allied fleets.

Despatches from the Serbian provincial capital, Nish, record the victorious offensive movement of the Serbians and Montenegrins against the Austrians, who are said to have suffered very severely.

A Swiss business man reports the garrison of Strassburg to have sustained an appalling total of casualties at Schirmeck, whereof 5,500 Germans who went in the engagement only 1,800 returned.

A wireless despatch adds that the Duke of Wuertemberg's German army marching through Belgium has completely crushed the advancing French army and captured many guns, flags and prisoners, among whom were several generals, while another German column defeated an English cavalry brigade to the west of the River Meuse.

Woman Artist Strangled by Japanese Photographer Who Fully Confesses to the Crime

(ASSOCIATED PRESS TELEGRAM) Monterey, Calif., Aug. 25.—George Kodani, the Japanese photographer under arrest in connection with the death of Miss Helena Wood Smith, a New York artist, whose body was found hidden in the sand dunes near Carmel-by-the-Sea, made a detailed confession of the crime yesterday.

The confession followed a number of conflicting stories of the murder, none of which the authorities believed. "I killed Miss Smith Wednesday night at midnight," said Kodani. "I was at her home in the afternoon and left there at five o'clock for Monterey. I had an appointment to meet Miss Smith at the point where I killed her, near the Septic tank, at 8 o'clock and she arrived there at the time. She brought with her some lunch. "I told her that I was going to Nevada with another woman to marry her and then she got angry and started to tussle with me. "I saw an oblong shell nearby and picked it up, striking her on the head with it. I did this to protect myself. After this I took a fish cord that was around a steamer robe she had brought and tied it around her neck. I strangled her. I was mad-wild. Then I tied her feet. I sat with the body until it was nearly daylight and then I dug a hole and buried her. "The Japanese told the authorities that he came to Monterey after he buried the body and endeavored to cash a check for \$252.22, which he said Miss Smith gave him."

EX-PATROLMAN GLENN WILL BE OPERATED ON

An injury to the head caused by a blow received during a struggle with a number of foreigners at a dance in East Newark several years ago, in which Officer William Glenn shot one of the men, will result in an operation in Columbus, probably Wednesday to relieve Glenn of the recurrent headaches from which he has suffered for many months.

Glenn had been detailed for duty at the dance which broke up about midnight in a fight which the officer attempted to stop. He was turned upon by a number of foreigners and was compelled to use his gun in self defense. In the melee he was struck on the head with a club.

Glenn was defendant in a criminal action in the local courts but was vindicated by an acquittal at the hands of a jury. Since that time he has been working at the foundry in West Newark. He has suffered from violent periodic headaches and physicians who examined him declared that the blow on the head has resulted in a growth that will require an operation to preserve his sanity.

RAPID DASHES OF GERMAN CAVALRY WERE SUCCESSFUL

London, Aug. 25.—4:00 a. m.—The French correspondent of the Express says that the British troops came into action for the first time on Friday and Saturday. It was only an affair of outposts and scouting but interesting because of the light it threw on the exhausted condition of the German advance guard.

The correspondent continues: "Detachments were scouting in the country to the westward of Brussels and south as far as Charleroi. Exhausted though the German cavalry was known to be as a whole, their success lay in continued rapid advance and it was obvious that they would push on at the first possible moment."

"So while the Belgians were sullenly falling back towards the north, the English cavalry was busily employed feeling for the inevitable German advance while the French horse, foot and artillery came up from the south and west."

CURRENCY ISSUE BY STATE BANKS IS UNNECESSARY

Washington, Aug. 25.—Secretary McAdoo emphatically disapproved proposals for authorization of crops because of the European war at today's conference of cotton and tobacco growers. He appealed to the conference "to get down to a practical basis."

"Any issue of currency by state banks is utterly unnecessary," said Secretary McAdoo, "and it is a waste of time to talk about it. Enough national bank currency is authorized by present law to handle the cotton and all the other crops in the country. I intend to see that all currency issued is safe because I tell you, gentlemen, that you cannot do anything worse than to inflate the currency to a point where you will wreck the credit of the country."

"This catatasy in Europe," he continued, "has caused a recoil in all business in this country. It is foolish to say that nobody will be hurt. Our business here is not to say that no one will be hurt. Our business is to help everybody to meet the situation as best they can."

Namur Fortifications Were Finest Work of Noted Military Engineer

The fortifications of Namur and Liege formed the finest examples of the work of the famous Belgian military engineer, General Henri Alexis Brialmont, whose reputation was world-wide.

The defensive works of Namur were not so strong as those of Liege, but the position of the city was much better for military purposes.

The forts are nine in number, the four most important being Saint Herbert, Audoye, Suarrie and Conzelee, while the connecting forts of less strength are Dave, Malzeret, Malonne, Marchevolette and Emimes.

All are protected by hardened steel domes, generally eight of them in each fort, and the artillery, consisting of modern heavy disappearing guns, is very powerful.

War News At a Glance.

London, Aug. 25.—3:15 A. M.—A despatch from the Express from Ostend says: "A great battle has been in progress in the province of Hainaut, on the southern frontier of Belgium since Friday evening. French and British troops have been engaged in desperate conflicts north of Charleroi and Fleurus with Germans who crossed the Meuse at Huy."

"Saturday French troops, which had spread from Lille, met the German right in east Flanders."

Antwerp, Aug. 25.—[Via London.—An official announcement today sets forth that King Albert of Belgium has promoted Lieutenant General Bertrand to the rank of full general, as a reward for his excellent conduct before the enemy.

New York, Aug. 25.—A tramp steamship, believed to be Austrian, was held up shortly after 11 o'clock today by a cruiser supposed to be British just outside New York harbor, according to observers at Fire Island.

London, Aug. 25.—A despatch to the Times from Ostend, sent today says that 30,000 Germans are attacking Malines, a Belgian city 73 miles southeast of Antwerp. Skirmishing is general in northwest Flanders.

Washington, Aug. 25.—President Wilson today issued a proclamation declaring the United States neutral in the war between Germany and Japan.

Paris, Aug. 25.—12:40 P. M.—A despatch from St. Petersburg sets forth that Russian troops, following up their advantages in Galicia have captured several passes south of Tarnopol, on the Sereth river. Tarnopol is 80 miles to the east of Lemberg.

A division of Austrian cavalry has been routed in Galicia at a point close to the frontier. The Russians captured two batteries of artillery and 200 prisoners.

Rome, Aug. 25.—Via London—3:10 P. M.—A despatch to the Corriere d'Italia from Antivaria, Montenegro, says the fortifications of Cattaro, the Austrian seaport in Dalmatia, on the Adriatic, have been completely destroyed and that the Austrian commander is now parleying for terms of surrender.

The bombardment of Cattaro was conducted by a fleet of the allies.

BOMBS

DROPPED INTO ANTWERP FROM
ZEPPELIN AIRSHIP KILL
SEVEN PEOPLE.

Besides Partially Wrecking a Hospital, Which was Flying Red Cross Flag.

London, Aug. 25.—A despatch from Antwerp, says a German Zeppelin airship which was brought to earth, succeeded in dropping seven or eight bombs into Antwerp last night. One of the houses wrecked by these missiles was situated only 300 yards from the palace of King Albert. Seven persons were killed and seriously injured by this explosion. Some other houses were half demolished by the falling bombs.

One bomb partly wrecked the hospital of Saint Elizabeth, but fortunately there were no patients in the building. The bombs exploded with terrific force, and threw the inhabitants of Antwerp into a state bordering panic.

There is intense indignation in Antwerp at the attack upon the hospital, which was flying the Red Cross flag.

NEWARK WOMAN HAS ARRIVED HOME FROM EUROPEAN TOUR

Miss Sarah Buckingham Gives Account of Her Experiences Before Sailing.

Miss Sarah Buckingham of 70 Hudson avenue, who has been spending several months in Europe, arrived in Newark early Tuesday morning.

Miss Buckingham with Miss Mary Sprague, who has been abroad six years, sailed from Liverpool on the Megantic of the White Star Line and arrived at Montreal on Sunday evening about 6 o'clock. Miss Buckingham left Monday for her home, while Miss Sprague will spend several days at Lake George and will later go to New York before returning home.

Despite the great war that is consuming Europe and putting a great hardship on American tourists, Miss Buckingham experienced little difficulty in returning home. The greatest trouble is being felt by those on the continent, and fortunately Miss Sprague and Miss Buckingham were in Winchester, Eng., when the war was declared. They had decided to sail for home on September 12, but decided to hasten the date.

At the Savoy Hotel in London, where they stopped, the greatest care is taken of Americans and every effort for their comfort is made. After the great conflict had started, 2,000 American tourists flooded into London. Money is loaned them and all are given passage as soon as possible. At the Savoy, when berths or staterooms are secured, public announcement is made, and like a public auction here, they are taken.

Misses Buckingham and Sprague secured from another woman two berths

in a state room, but later the woman secured another room and there were two vacant berths in their state room which were not taken. After the first excitement of the announcement of war, the rush for home has quieted and on the day the Megantic sailed from Liverpool, four other vessels sailed, and on the trip home no trouble was experienced and not even another steamer was sighted.

London is quiet, and the publication of the news is strictly censored. The newspapers are most conservative and no paper sensationally displays any of the stories. Tales of hardship, with loss of money and baggage, are told by tourists coming from the continent, but as yet those in England, have received only the kindest and most considerate attention.

The only thing in which Americans seem to be restricted is in sending of cablegrams. In cabling of ailing Miss Buckingham in writing the cablegram told the name of the ship and the date and the point where she would land. All this information was stricken from the cable and only the word "sailing" was permitted.

Our Abused Feet.

There have been many milking accusations brought against civilization, but may they not all be summed and typified in the prevalent custom of abusing feet?

We enclose them in leather air tight coverings, and may this not be why our souls are so hidebound? When we wish to be particularly civil we paint this leather with an impervious polish that the tea poor prisoners in the two black holes of Calcutta may be exquisitely punished.

When I think of the abuse heaped upon our feet, how the toes are misshapen by irrational compression, how the arches are broken by high heels, and how corns, bunions and abrasions afflict alike the darling of fashion in her too narrow boots and the laborer in his hard brogans, and how humanity climbs up utterly without initiative to break the bonds of habit I do not wonder at the other things they do.—Chicago News.

An Absentminded Amateur.

They were talking about their husbands over the tea tables. Husbands and the weather supply the same vacuum between the eaves of gossip.

"Theophilus, you know, is very absentminded and so wrapped up in his new study of photography that that's all he thinks of. You can't imagine the time I have with him."

She paused a moment to imagine it herself, while her listener found an idle interest in creasing the lace ends with her fingers.

"Oh, this is what I was going to tell you! Theophilus came out of the dark room the other evening just as dinner was set. I says to him, 'Theophilus, what are you standing up there rolling that plate of soup around like that for?' 'Just a minute,' he says to me, 'just a minute. It's developing nicely. See that high light coming up?' 'High light nothing!' I says, 'That's cracker. Sit down!'"—Kansas City Star.

Workers Without Wages.

Birds live to eat. It is lucky for men they do. Some years ago a French scientist told the world that if all the birds should suddenly die the man would have only a year's life left to him and proved his point to the satisfaction of other scientists.

How much does a bird eat? Take a robin as an example. It eats at certain seasons of the year about double its weight in insects and worms every day.

The bird's dinner hour begins at sunrise and ends an hour after sunset. Any legislation looking to the shortening of its hours of labor, which are coincident with its hours of eating, would bring famine. All the song birds and all the silent birds give their service to man, and they ask no pay for it except to be let alone.—Our Dumb Animals.

Fishskin Dresses.

Among the most curious as well as wonderful of garments are the fishskin dresses worn by wealthy women of the gold tribe along the Amur river in east Siberia. These women produce some extraordinary ornaments, designs and embroidery. The dresses mentioned are composed of several layers of fishskin, the undermost representing the skin of the garment proper, the uppermost showing the ornaments in their cutout forms. Between these two layers there is another layer that serves to throw out distinctly the beautiful qualities of the ornaments. The pieces of fishskin that form the ornaments are usually blue. The front and back of the dress are adorned with these cutout pieces of fishskin sewed with fishskin thread.

Only Jar of its Kind.

Horace Walpole tells a lively story of an old porcelain vender who had an exceedingly rare and valuable jar on which he set an almost fabulous price. One hot summer a slight volcanic shock, such as the British isles occasionally experience, jogged his house about his ears and split the porcelain vase. To an ordinary mind the accident would have been calamitous, but the china seller rose superior to fortune. He doubled the price of the article immediately and advertised it as "the only jar in the world which had been cracked by an earthquake." Nothing very slow about that.

Cruelty to Animals.

The first legislation to be passed for the protection of dumb animals was the work of an Irishman, Richard Martin of the county of Galway. In 1822 Martin introduced a bill for the prevention of cruelty to animals in the British house of commons. Queen Victoria was one of the principal supporters of the Royal Society for the Prevention of Cruelty to Animals, and it was she who gave the society its name.

REASONS THAT SUGAR PRICES HAVE SOARED

Europe and America are now engaged in a battle royal for sugar. That is the primary cause of the high prices that now prevail. Cut off by the outbreak of the war from her supply of 1,500,000 tons of sugar ordinarily secured from Germany and Austria-Hungary, England turned to the nearest available sugar market, which happened to be New York. Backed by cash, assuming all the war risk involved in shipment and ready to pay whatever prices might be necessary to secure sugar, British buyers invaded the American market. Within little more than a week, they purchased almost 100,000 tons of raw and refined sugar, bidding up the market nearly 3 cents a pound in the process of getting it. Their buying subsided temporarily only when they found it impossible to secure further prompt transportation. As another war measure for securing a supply of sugar, orders were issued in all the sugar-growing colonies of Great Britain forbidding the sale of sugar except for imperial use.

At the outbreak of the war the visible supply of sugar available for the American market was barely sufficient to last until the new crop of American grown sugar should begin to become available in October. The withdrawal of 100,000 tons from this supply created a serious shortage, and inquiries received in the New York market indicating that England would seek to obtain several hundred thousand tons more of sugar, and that other European countries might endeavor to purchase sugar here, threatened to make this shortage much more serious. As a result American producers, in order to guard against the possibility of the market seeking to protect their own trade, entered into active competition with the foreign buyers in the scramble for sugar. To make the situation more acute, consumers in all parts of the country rushed to lay in supplies far in excess of their ordinary purchases, thus accentuating the scarcity.

The prize for which the buyers of Great Britain and America are contending is the Cuban sugar crop. England and the United States each import annually about 2,000,000 long tons of sugar. The Cuban crop is about 2,500,000 tons, enough to supply one of these two big customers, but entirely inadequate to meet the needs of both. The prospect, therefore, is for a keen struggle on the part of these two countries to secure the bulk of the coming Cuban crop in case the war continues for any considerable length of time.

When the present blockade of shipping is relieved, it is probable that Great Britain, and possibly also the United States, may obtain some sugar from tropical cane growing countries other than Cuba. The fact remains, however, that the European nations producing annually 8,000,000 long tons of sugar, or 45 per cent of the entire world's sugar supply, are now at war. A large part of this crop will be sacrificed—how much remains to be seen. At any rate, approximately 2,300,000 tons ordinarily exported from these countries is withdrawn from accustomed trade channels, and this means a world-wide scarcity of sugar while the war continues and probably for some time afterward.

The one great lesson for the American people in the present situation is the necessity of encouraging and developing the production from American soil of all the sugar required by the American people so that we may be independent of other nations and our consumers may be assured of a permanent adequate supply of cheap sugar.

REDUCING SUGAR IN DIABETES

The reduction of sugar in many cases of Diabetes in people aged fifty and over by an agent that opposes Hepatic degeneration is not a matter of opinion but a FACT IN PHYSICS, and we will mail formula that will show the percentage of sugar from week to week. As the sugar disappears improvement commonly follows, recoveries having been reported in many cases.

Example—J. J. Pennepacker, Principal of the Public School of Hingham, Wash., advised that some three years ago he was broken down with Diabetes. Tests showed four per cent of sugar and his physicians agreed they could do nothing more for him. He put himself on Fulton's Literature and sugar formula mailed on request. John J. BOOSTER SERVICES AT NORTH NEWARK C. U. CHURCH SUNDAY

Sunday was "Booster Day" at North Newark Christian Union. It was an ideal day for such an occasion, but there were too many other attractions to draw a large crowd at this particular place. Yet, although the crowd was not large, or what should be expected, those present were treated to the excellent sermons, morning and evening, by Dr. Vandament of Greencastle, Indiana, and to excellent music by the North Newark chorus choir. The subject of debt liquidation was taken up by the pastor, and with the assistance of Dr. Vandament, who kept the people in splendid good humor, quite a nice sum was pledged, to be paid within one year, in monthly installments, and at night a few dollars more. Dr. Vandament gave us two most excellent sermons, and those who were present certainly appreciated the efforts made to instruct and entertain. While the amount raised is small, compared to what was expected, it is a nucleus or starter, and now the church proposes to inaugurate a systematic canvass, by hustling workers, and at least attempt to clean up their indebtedness within the next twelve months.

Broken Down Newark Man Tells How Quickly Nerv-Orth Built Him Up.

"After being sick three weeks with fever, I was hardly able to work. A friend told me about Nerv-Orth, and I began to take it. At the end of four days treatment, I felt like a new man. Nerv-Orth has done me lots of good in building me up so I can do my work, and I mean to continue taking it until I am strong again."

These are telling words. They were written by Edward Hurlbaugh, of 136 North Fourth Street, Newark, Ohio, who added that he "wanted his friends and neighbors to know what a wonderful thing Nerv-Orth did for him." In this remarkable statement there is new proof of the far reaching power of Nerv-Orth to do broken down people good. The fact is that hosts of persons believe that they are broken down all over, when when it is their nervous system only that is affected.

See what Nerv-Orth did for Mr. Hurlbaugh in the way of making him capable of working again. By toning up his nerves it toned and braced up the whole man. See the Nerv-Orth specialist at the Evans Drug Store, Hotel Warden Building, and tell him about your nervous debility. Let him give you a free sample dose. Nerv-Orth is guaranteed. Your money back if it fails to help.

Asking Him to Read the Future.

"Going to try to learn something about the future?" asked Mr. Vagles.

"Yes. I am going to ask him when he expects to pay the arrears of rent for that cottage of mine he is occupying as a school of astrology and institute for psychical research."—Birmingham Age-Herald.

If this great war continues long, nobody can truthfully say that Europe is over-populated. An it is a safe assertion to say that a large proportion of those who are left will seek refuge from burdensome taxation in America.

There should have been a dictograph record of what Charles L. Knight, of Akron, said when he heard that Harry M. Daugherty was again in full control of the Republican state central committee, of which Knight is a member. Bet a new five dollar gold piece against a wooden nickel that the machine would have been broken.

Politics makes strange conditions. In 1912 Harry M. Daugherty became a martyr to loyalty and saved the Republican party from sinking into last place in Ohio. In the same year Frank B. Willis hid himself in the woodshed until the campaign was over. Now Daugherty has been thrown overboard as a boss and Willis is at the helm as the nominee for governor. Can't figure it out, at all.

Tod's friends in Youngstown say that he was cozened out of the nomination for governor by the rascally performance of the "Franklin county gang," which had him arrested and haled into court. Mercy sake! A gang? Why it called itself a "set" together association when it flopped from Tod to Willis on receipt of the distressing information that the Youngstown candidate positively would not fork over \$5000.

For the benefit of the gentlemen hired to vociferate at all hours that every act of the present state administration is vile, a mistake or an attack upon the rights of a "lubberly living" people, attention is directed to the recent action of the Indiana state government. Like Ohio, it has purchased 1553 acres of land at an average cost of \$200 an acre, for the purpose of founding a state penitentiary farm. Tune up, ye calamity birds, and caw about this fr-rightful extravagance!

Prices of Food.

Under the constitution, congress is prohibited from levying an export duty. But congress is not prohibited from laying an embargo on exportations of foodstuffs. The sooner this power is placed in the hands of the president the better. * * * There is plenty of foods in the United States. This is a year of unparalleled agricultural prosperity, and the total value of the farm products of this country has been estimated at \$10,000,000,000 on a par value basis. Yet with foreign commerce all but paralyzed and exports trifling in comparison with normal times, Americans are compelled to pay famine prices for their food in order to put millions into the pockets of Americans who are morally guilty of treason to their country in the hour of a great crisis. * * * Let congress serve notice once and for all that the American people are neither to be plundered nor starved to fatten private greed.—New York World.

Japan's Attitude.

Japan appears to have acted mainly through two motives, neither of which is to her credit. One of these probably was a vainglorious desire in her own part to take part in a European war, she being in alliance with England at this time, and the other was the desire to get a firmer hold on the mainland of China. Either of these motives would justify a suspicion that Japan is not as trustworthy a neighbor as to go without watching, and if both had been Japan has thereby shown herself to be a dangerous neighbor.—Hartford Courant.

Central Point of Interest. For reasons that require no explanation, Germany is the central point of interest. According to the reports, she has 20 of her army corps proceeding resistlessly or otherwise, to the westward. On the east are six army corps to hold Russia in check. The last-named, according to a German authority, must wage an offensive war, and will require 1,000,000 men, well equipped with artillery, to storm a host of fortresses in measurable superior to those of the little town of Liege. — Washington Post.

HEADACHE.

I wrap a rag around my brow, and say, "I have the headache now," when some renowned acknowledged bore comes knocking blithely at the door.

The bore is told of my distress and goes away, but thinks, I guess, that all my fierce, convenient ache, would strike the doctors as a fake. My frau announces that the place needs cleaning up, it's a disgrace.

"Go out," she begs, "and take away those old tin cans and bricks and hay, and make the whole blamed place appear as though white folks were living here." Whereat I heave a hefty sigh, and wipe some brim from my eye, and say "Ah, maught would please me more! I dearly love just such a chore! But I am feeling half way dead—I have a headache in my head." The headache has its daily use; it is the finest old excuse! Without it life would be so blue! We couldn't dodge things as we do. But now, when things unpleasant come, with anguish we pretend we're dumb, and to our chambers we repair, and nurse our gilt-edge headaches there.

Miss Susanna Allport is entertaining this afternoon with one of the largest and most delightful bridge parties of the week. The affair is given in honor of Miss Genevieve Brown, daughter of Mr. and Mrs. E. E. Brown of this city, announcing her engagement and approaching marriage to Sherman Baggs of Newark, Ohio. The party is being given by Miss Allport at her handsome home on Oak street the entire lower floor of which is thrown open and decorated in pink and white. Pink roses and asters are combined in artistic profusion against a background of ferns with trailing and fragrant white clematis forming graceful festoons. The luncheon which was served at 1 o'clock this afternoon was served at small tables placed throughout the reception rooms and dining rooms and on the galleries. On each of these tables was placed an exquisite center decoration of pink and white cut flowers and at the place of each guest place and tally cards of pink and white. On the luncheon table of the bride-elect pink roses were most attractively combined with garlands of clematis. The announcement of Miss Brown's engagement and approaching marriage was made in a way at once unique and most original. Just as the guests took their places at the table the hostess entered bearing a shiver bouquet of pink asters on her left arm from each aster suspended with a ribbon of white a miniature bag of brown paper in which were placed two candy hearts of pink and white on which were written the names of the bride and bridegroom elect. The souvenirs caused much admiration being emblematic as "Brown-Baggs." Those dainty favors were distributed by the hostess the announcement being received with pleasure and interest by the friends of the guest of honor present, Miss Brown being a popular and charming young woman of pleasing personality and affable manner.

A live course luncheon was served and following the luncheon the game was begun, for which three handsome prizes were offered. Sixty-four guests enjoyed Miss Allport's hospitality. The Asheville Gazette-News, Asheville, N. C., August 19.

THE SIGN OF THE SON OF MAN IN HEAVEN

"Then All the Tribes of the Earth Shall Mourn."

IMPORT OF GOD'S PROPHECY

The Character of the Sign—Its Effect Upon the Whole World—Why Mourn If Messiah's Kingdom Brings People Blessings—Israel's Mourning Particularly Foretold—Its Blessed Results. Similar Blessings For All Nations. The Day of Trouble a Plowshare to Prepare the Hearts of Mankind For Designed Messianic Blessings.

(PASTOR RUSSELL)

August 23.—Notwithstanding the summer heat a goodly congregation greeted Pastor Russell today. His Photo-Drama of Creation, whose beauty and instructiveness are more and more appreciated as the days and weeks go by, continues to be presented both at home and abroad. The Pastor's topic was from a text we have never before heard discussed in the pulpit—"Then shall appear the sign of the Son of Man in heaven; and then shall all the tribes of the earth mourn, and they shall see the Son of Man coming in the clouds of heaven with power and great glory."—Matt. 24:30.

The speaker pointed out that various suggestions have been made by scholars respecting the import of this prophecy by the Master. Some guessed that the sign would be a Cross in the sky. Others thought that it would be Christ Himself, who would appear in some wrathful form to humanity, causing dismay.

The Pastor surmised that his hearers had read the published reports of his sermon of last Sunday respecting the Second Coming of Christ in its two phases—the Parousia, or invisible presence, followed by the Epiphania, or bright-shining in flaming fire, or judgment. He asked his hearers to remember the findings of last week—that we cannot say that the sign of the Son of Man in heaven will be His Parousia. On the contrary, the Parousia of Christ will not be known to the tribes, or families, of the earth in general, but will be known only to the most saintly ones of the Church of Christ. Consequently, the sign of the Son of Man must in some sense stand related to His Epiphania, or shining forth in the "flaming fire" of judgment, which the whole world of mankind will recognize.

The hearers were reminded that the word "sign" is of broad meaning; for instance, a sign of mourning; the Cross represents Christianity; the Crescent, Mohammedanism. In other words, a sign is merely an indication. So when we read of the "sign of the Son of Man in heaven," the thought might properly be that something will occur indicative of the presence of the Son of Man—that He has taken to Himself His great power and has begun His Reign. Since the Son of Man is to be revealed in flaming fire, taking vengeance, it follows that this sign must be some sign of vengeance, some indication of righteous indignation against wrong.

The question, then, arises, How would such a sign, or indication, appear in the sky, in the heavens? The Pastor replied that this is not the thought. On the contrary, he urged his hearers to remember that the Bible repeatedly uses the words heaven, mountain, sea, in a symbolical manner—the earth representing organized society; the mountains representing kingdoms, as the backbone of this organized society; the seas representing the restless masses of humanity, continually seeking to swallow up the social "earth." In the same symbolical terms the heavens represent the ecclesiastical powers of the world—churchianity. The sign appearing in the heavens, the Pastor believes, signifies that the beginning of Christ's judgments will fall upon the ecclesiastical systems of our day. The flaming fire of judgments will first manifest itself in ecclesiastical affairs and circles.

Mankind will gradually become awakened to the thought that a new Government is in control, and that its policy will be the law of "judgment to the line and righteousness to the plumb-line." Since unrighteousness is prevalent as a result of man's fallen condition, the consequences of the whole world will be awakened, quickened; and fear, dread, will come upon all classes everywhere. This will be not only because they will see the primary sign of Christ's righteous judgments in religious circles, but because they will see Him coming—drawing nearer and nearer in judgment; and they will recognize that they, too, must shortly be involved. Hence there will be mourning because of Him.

Furthermore, it will be remembered that all the families of the earth have very crude and incorrect views of Messiah and of the object of His Second Coming and Kingdom. The "doctrines of devils," brought into the church creeds during the Dark Ages, have so made void the Word of God that the majority of mankind fear the Almighty, dread Him as their Almighty Foe, instead of realizing Him to be the God of all grace and the Father of all mercies, "from whom cometh every good and perfect gift."

The eyes of the world have been blinded to the goodness of God. Terrible dread in the hearts of humanity will lead to the view of fear as they perceive Christ's righteous judgments enacting all the earth.

"The signs and groanings promised To precede a second birth."

Not knowing of a "second birth" and all the glorious blessings which Messiah's Kingdom is designed to bring to mankind, human hearts will be filled

with dread and apprehension. Only those who are truly the Lord's and are rightly informed respecting the Divine Plan of the Ages will be able to lift up their heads and rejoice, knowing that their "deliverance draweth nigh."

"The Heavens Being on Fire."

St. Peter apparently described this sign of the Son of Man in the heavens, revealed in flaming fire. His words are, "The heavens being on fire shall be dissolved," and "the earth also [shall take fire] and the works that are therein shall be burned up." (2 Peter 3:10-12). Let us not make the mistake of our forefathers in supposing that these descriptions mean a literal burning of the literal earth. Let us, on the contrary, realize that the symbolical earth and the symbolical heavens are to catch fire and pass away with a great commotion, while the physical earth will remain practically as it is, and will begin to undergo the transforming influences of Restoration under the new King, the Restorer of all things—Jesus and His glorified Church.

It will be noticed that St. Peter mentions the fire as coming to the heavens before it reaches the earth, in just the same order that Jesus stated the matter. The sign, manifestation, of the flaming fire of judgments will appear in the heavens; and subsequently the sign of the Son of Man in judgment will be seen coming nearer and nearer to earth's affairs, with a view to purging them absolutely from everything sinful, selfish, unjust.

We are told that the elements will melt with fervent heat. We see the Capitalistic element and the Labor element separating, the one from the other. We see the preparations for the great conflagration, the great Time of Trouble. We sometimes speak of it in this language, saying, "Things are getting very hot." They will presently be so hot that spontaneous combustion will set in. And the fire of that Day will be so extreme and its results so drastic as to fulfill the Master's words that unless those days of tribulation should be shortened no flesh would survive.

But because of the Election, because of the Kingdom which will then be set up, those days will be shortened—brought to an end. Nothing will be destroyed except that which is injurious. The world-wide results of that flaming fire of Divine judgments will be corrective, preparing men's hearts for the blessings which the Lord is prepared then to give. Thus it is written, "When the judgments of the Lord are abroad in the earth, the inhabitants of the world will learn righteousness."

It will be noted that St. Peter, in speaking of that Time of Trouble, mentions that the heavens—ecclesiastism—will be on fire first; and that later, the earth—society and its political, financial and social organizations—will be involved also. In harmony with this, our text tells that this sign, or indication, for the revealing of Messiah in flaming fire, will first be in the Church. Furthermore, according to St. Peter's statement, we are to expect that the ecclesiastical heavens will pass away with a great noise—a great commotion—before the social order is fully reached by the consuming fire.

The same thought is brought to our attention in Revelation, where a wide distinction is made between the nominal church systems, called Babylon, and the true Church, which is admonished in advance to come out of Babylon and to stand in personal relationship to God through Christ. This general call, which belongs to the end of the Age, before the judgments come upon Babylon, reads, "Come out of her, My people, that ye be not partakers of her sins, and that ye receive not of her plagues." The intimation is that as soon as the loyally obedient have been gathered out of Babylon some drastic trouble will come upon her.

We should not apply this term "Babylon" to individuals, but to great systems, outwardly having a form of godliness, but really misrepresenting the Divine character, the Divine Plan, the true teachings of the Bible. Of course, the individuals identified with the systems have more or less responsibility, according to their official position and their intelligence. In similar proportion these individuals may have tribulations in conjunction with the fall of Babylon. We do not understand the term "Babylon" to be applied Scripturally to any sect or party, but rather to refer to the general conglomeration of systems and denominations. Likewise, when reading of the utter destruction that is to come upon Babylon, we are to differentiate between the systems and the individuals connected with those systems.

The judgments of the Lord are not designed to crush or destroy humanity, but to destroy utterly the systems of error, bondage and superstition which have fettered humanity and hindered them from fuller progress and development in the knowledge and favor of God. With the fall of the great systems (Babylon, confusion) men's eyes will begin to open; the blind will begin to "see out of obscurity" (Isaiah 29:18). As a result, the high praises of God will arise as a sweet savor.

The fall of Babylon is declared to come speedily, suddenly—figuratively, "in an hour." The descriptions of her fall are various. In one place we read that she shall be utterly burned with fire. The same symbol of fire is used by St. Peter, in referring to the same burning and destruction. In another place we read that Babylon shall be cast like a great millstone into the sea and be found no more at all.

"Every Eye Shall See Him."

Throughout this Gospel Age, the Lord's people have with the eye of faith recognized Jesus as their Redeemer and Deliverer. But comparatively few have had such eyes of faith and understanding. The majority, as the Apostle declares, are blinded by Satan and by error, and fail to get a proper, true view of Christ. He says that

OBJECTION TO NEUTRALIZ-

dor's Return.

Washington, Aug. 25.—The French government's unfavorable reply to the American proposal for recognition of the neutrality of belligerent ships carrying refugees from Europe was not a final decision, Secretary of State Bryan said today. The proposal was made in connection with the plan to charter Hamburg-American liners to bring United States citizens home. France indicated its disapproval, contending it would be an advantage to German shipping.

With the return to Washington of Jules Jusserand, the French ambassador, it was understood negotiations on the subject would be renewed. The American government is anxious to establish the principle that ships chartered to carry the citizens of neutrals may be regarded as on a mission of philanthropy, one of the circumstances, according to the second Hague convention, under which vessels are exempt from capture.

At present Americans are able to leave Europe through other arrangements.

PREPARING FOR
CONCLAVE TO
SELECT POPE

(Associated Press Telegram)
Rome, Aug. 25.—In preparation for the approaching conclave to elect a successor to Pope Pius X, the printing bureau of the Vatican is getting out maps which are to be distributed to the cardinals, showing each one where his apartments are to be located.

Owing to their feebleness, several of the cardinals will be permitted to occupy rooms in the rear of the Sixtine chapel. As they must go to the chapel twice daily to cast their ballots, these locations will avoid the necessity of their climbing stairs.

Other cardinals have been notified that they may celebrate mass in their own rooms, thus avoiding the fatigue of going every morning to the Pauline chapel. For these cardinals special small wooden altars are to be provided.

KAISER'S NEPHEW
IS A PRISONER,
SAYS DESPATCH

(Associated Press Telegram)
Paris, Aug. 25.—A despatch to the Excelsior from Courtrai says that the emperor's nephew, Count von Schwerin, has been taken prisoner. He was in command of a detachment of Uhlans who reached Harlebeke. French chasseurs being informed of the presence of the Germans arrived on the scene and killed one, wounded five and made prisoners of the others.

According to the Matin, the ministry of commerce is considering the best means of annulling German patents and trade marks in France, following the similar practice adopted by England.

A despatch from Geneva says that a business man who has just returned from Strassburg gives his impressions, which are printed in the Tribune. He says that the garrison of Strassburg was practically annihilated in the battle of Schirmeck of 1870. Only 1800 returned. Four German batteries were put out of action before they were able to fire a shot.

ORDERS

TO EVACUATE CERTAIN POSI-
TIONS FAILED TO REACH 500
BELGIAN SOLDIERS.Who Were Isolated from the Main
Army But Held Out Eight
Days.

(Associated Press Telegram)
London, Aug. 25.—The Antwerp correspondent of the Morning Post tells a vivid story of the adventures of 500 men of the Belgian army at Liege who arrived at Namur Saturday afternoon, after twenty days of fighting and marching.

At the opening of the war, their post was between the Liege forts Chaudfontaine and Embourg. On Wednesday night of the first week of the war, orders were given them to evacuate their positions but the orders never reached this battalion which became isolated by the Germans, but with a strong fort on each flank. The Germans were aware of their presence but did not know their strength and the Belgians entrenching were able to hold out eight days after the retirement of the main Belgian force and repulsed constant German attacks.

Finally when their rations ran short they succeeded in breaking through the German lines and after many hairbreadth escapes reached Searing. This was not accomplished without several brushes with the enemy during which many of their number were wounded. They reached Huy on Saturday after the railway authorities made up a train and took them to Namur.

Lelia C. Brown, Organ and Piano; graduate of New England Conservatory of Music, 1907; post graduate, 1909; for two years teacher in Normal department of New England Conservatory; two and a half years' course at Peabody Institute, Baltimore, Md.; pupil of Ernest Hutchinson of Berlin, Germany. F. Addison Porter, Boston, and Harold Phillips, Baltimore.

Miss Brown is an experienced teacher as well as a brilliant technician, having taught for several years in Boston and Baltimore. The Conservatory has given her permission to continue her concert work, as she has already accepted a number of engagements for next season.

One of these is for a second concert under the auspices of the Women's Club of Columbus, in Memorial Hall. Of her concert there last season, the Dispatch gave a column of enthusiastic praise—"Nothing but pure art. The way in which she brought out her interpretive ideas and the fertile technique with which she magnified the beauties of these numbers, made us feel that here was no mere organist. She is indeed an artist."

Mr. Preston has been a successful teacher of voice for a number of years. He was for a time associated with Harry Brown Turpin, the teacher of Cecil Fanning, and when the Turpin-Fanning tours were organized, Mr. Preston succeeded Mr. Turpin in much of his teaching work. Mr. Preston is a tenor.

It is not necessary to add further information concerning other members of the faculty who have been engaged, as their standing is established by past record.

Miss Florence Cooney has returned from a visit with friends in Dayton.

Mr. Ralph Morrow, who was brought home over a week ago with a severe attack of fever, is no better, if not perceptibly worse. A trained nurse is in charge and everything is being done that science and loving home care can accomplish.

Mr. and Mrs. Sanford Black had for their Sunday guests Dr. Stanley Barnham of Kansas City, Kans., Mrs. Martha Vernon and little grandson, William Savoy, Misses Una Mitchell and Fannie Dougherty, all of Newark, O.

Homes Too Com-
plicated to Bring
In PoliticsBy Mrs. MARTIN H. GLYNN, Wife
of Governor of New York State

I AM opposed to woman's suffrage. Homes today are already too complicated without bringing in politics too. Why, you would have women competing with men! Think what the effect of that would be!

WOMEN ARE NOT MENTALLY EQUIPPED TO CO-OPERATE WITH MEN. I HAVE SEEN VERY FEW WOMEN THAT I THINK COULD SURVIVE SUCH A TEST. MIND, I DO NOT TRY TO INFLUENCE MY HUSBAND ALONG THIS LINE. HE IS INCLINED TOWARD SUFFRAGE. THAT IS HIS BELIEF. I AM OPPOSED TO IT. THAT IS MINE.

My sister, Mrs. Anna Haberly, is a rabid suffragist. She lectures and writes and argues. But she cannot influence me one bit.

Johnson—How is it that you never speak to Jones now? You used to be quite friendly with him at one time. Brown—Well, you see, it's like this. When I knew him I didn't know him, but now that I do know him I don't know him.

"Love's Old Sweet Song"

Music is more than mere entertainment. It begets culture and refinement and builds character. It makes life sweeter. It awakens the very depths of love, sympathy and harmony. While seated in the twilight, the soft strains of the piano carry you off to other realms, where you forget the world and its cares and are wrapped in the thoughts and emotions which sentimental music brings—

"Just a song at twilight,
When the lights are low,
And the flickering shadows
Softly come and go."

You may think these finer emotions make little difference to you and your children, but in the long run, if you have ever experienced them once, you will then fully realize that something very important has been lacking in your home and in your life.

PLATFORMS

(Continued from Page 1.)

state platform convention in session here today, lauded the administrations of President Wilson and Governor Cox. He reviewed the laws enacted during the Cox administration and declared that "the transformation which has been wrought in Ohio has been so thorough, so rapid and so revolutionary, that some citizens of the state stand aghast, and by their frank amazement, furnish a high testimonial to the many and searching reforms."

"Some of you," the chairman said, "must conduct the campaign upon the platform here to be adopted and others of you, if elected to your respective offices, will be charged with the duty, either of embodying this platform into legislative form or of executing such legislation when it shall have been enacted. Therefore you must carefully consider the declaration of principles which you are to submit to the electorate of Ohio, in the last two years, has set an example of fidelity to campaign pledges and pre-election promises, the equal of which has never been known to American politics."

Speaking of President Wilson, the former governor said:
 "Woodrow Wilson, today, through the great results he has achieved and by his purity of purpose and nobility of soul, is the most conspicuous figure in the world—the calmest, the most sagacious, the best poised and most highly admired."

Concerning taxation he said: "Turn your attention to the stringent acts upon the subject of taxation which, added to laws along the same line enacted by the preceding Democratic legislature and governor have enabled the present administration to add over \$1,500,000,000 to the tax duplicate. These stupendous figures sufficiently account for the opposition which these laws have aroused; certain respectable tax dodgers have been compelled to disgorge, and it is but natural that they should whine about it."

Although the Democratic state executive committee of 12 was not chosen formally by the central committee until late last night, all members were here today to attend the convention. Most were in Columbus last night.

The personnel of the committee was dictated by Governor Cox, Attorney General Hogan and other state candidates in conference with a special committee of the central committee last night, and later ratified by the central committee.

The members are:
 H. E. Taylor, of Scioto county; W. B. Congwer, of Cuyahoga; W. L. Finley of Hardin; E. H. Moore, of Mahoning; James R. Ross of Franklin; James W. O'Brien of Hamilton; A. D. Follett, of Washington; D. A. Unverforth of Putnam; Edward Holzgen, of Butler; Charles Hlowick, of Mercer; Charles E. Dye, of Champlain and James E. Campbell, of Franklin. Mr. Finley was re-elected chairman of the executive committee.

In his address before the convention, Governor Cox made his first public attack on the opposition since the primaries, praised enthusiastically President Wilson's administration and characterized his own administration as a "term of promises fulfilled." He promised if re-elected, "an era of legislative rest."

After giving a detailed review of the principal legislative reforms of the past two years, he said: "If the laws are rooted in both justice and logic, they deserve to be tested by their friends, not their enemies."

"The Republican leaders have reduced their cause to a plain running hypocrisy and their methods are calculated to appeal to neither public reason nor favor," said the governor.

No mention of Progressive opposition was made during the entire address.

Governor Cox referred to the speech of Frank B. Willis, Republican candidate for governor, at Marysville recently, in which Mr. Willis deprecated giving undue honor to the confederate cause and southern veterans, as an example of what he called "an attempt to stir up hate between Americans and for the ignoble purpose of catching a few votes." He did not mention Mr. Willis' name.

President Wilson was characterized "the most commanding figure at this time in all the world, the man all nations trust."

Referring to the administration's program, Governor Cox said:
 "The Democracy after lending its efforts to carry out the changes outlined in the new constitution, now presents as its policy an era of legislative rest in our commonwealth. The opposition is therefore compelled to accept or oppose the program. It subscribes to it then it implies its acquiescence in the wisdom of the new laws. If it means to disturb these measures, then it favors two years more of legislative activity."

E. W. Hanley, Dayton, chairman of the Democratic state central committee, called the Democratic convention to order shortly after the Republicans began their meeting in another part of the city.

Mayor Karb of Columbus welcomed the delegates and Rev. J. W. Meyers of Columbus, gave the invocation. Former Governor James B. Campbell, then began his keynote address. He was interrupted by the arrival at the hall of the Duckworth Democratic club of Cincinnati and the Franklin county Democratic Club Marching into the hall headed by bands.

Both clubs were loudly applauded. Senator Albee Pomeroy, who attended the convention as President Wilson's envoy, delivered an address making a plea for party harmony.

The name of the Democratic party, he said, "now overshadows all other parties. Whatever political differences there are should be put away in the interests of the great Democracy of this state. The Democratic administration has made good."

He told the delegates not to forget the addition of more than a billion dollars to the tax duplicate. "I

cannot recall under any Republican administration that called a special session of the legislature to reduce the tax rate," he added.

CHAIRMAN SAYS REPUBLICANS ARE TOGETHER

Simeon D. Fess Sounds the Slogan and Pleads for Willis' Election.

(Associated Press Telegram)
 Columbus, Aug. 25.—"The Republican party is together. There is no need to refer to a 'get together,'" Simeon D. Fess of Yellow Springs, the temporary chairman of the Republican state convention sounded this as the keynote of the Republican fight this fall, in his speech opening the convention.

The Underwood tariff was criticized by the congressman. He deplored what he termed a condition of commercial and political unrest; urged the people to support the national administration in its attempt to preserve neutrality in the European war; declared the conflict will show to the United States its latent possibilities; and pleaded for the election of a Republican congress.

The Progressive party is in a state of serious decay, according to Mr. Fess. He predicted victories in the election of congressmen, United States Senator and Governor.

"If you send Willis to the state house as governor the nation will look to Ohio in 1916," Mr. Fess concluded.

The convention adjourned at noon until 2 o'clock for the appointment of the committee resolutions. The final draft of the platform will not be presented to the convention until 10 o'clock tomorrow morning.

Enthusiasm ran riot at the mention of the party leaders in the state. The delegations from all districts applauded alike at reference to the name of either Frank B. Willis or Warren G. Harding.

PROGRESSIVES ARE UNITED ON 2 ISSUES

Favor Woman Suffrage and Prohibition and Want No Republican Alliance.

(Associated Press Telegram)
 Columbus, Aug. 25.—The Progressive party, without equivocation or evasion, is in favor of woman suffrage and prohibition, whether applied to municipalities, township, county, state or nation, John L. Sullivan of last Liverpool, chairman of the Progressive state platform convention, declared here today in the keynote address of the meeting. After a bitter attack on the Republican and Democratic parties, in which he said, "no compromise; no surrender," should be the motto of the Progressives, Mr. Sullivan asserted that the members of the third party are ready and willing to fight another battle under the leadership of Theodore Roosevelt, "and that they are confidently looking forward to 1916 when Mr. Roosevelt shall again be elected President of the United States."

Giving to the Progressives the credit of bringing about the enactment of the direct primary law, which he said came as the result of an awakened public conscience, the chairman told the delegates that by participating in a political convention called for the sole purpose of adopting a platform, they were gathering "the first fruit of a victory over the old machine-made and boss-controlled convention system of nominating candidates for office."

"Had that method of nominating candidates for office and choosing delegates at large to national conventions been in vogue in 1912," he went on "a vast majority of the electorate of Ohio would not have been robbed of their choice of a candidate for president of the United States or made the victims of the most daring bunco game in the annals of American politics."

Concerning the Republicans, Mr. Sullivan said they would have the people of Ohio believe they have repented of their sins and been born again, politically. "If they were not fit to lead us in 1912, they are not fit to lead us in 1914," he continued.

"They are the same reactionaries as of yore, and have nothing but contempt for the Progressive standards. Our slogan, our motto, therefore, should be no compromise, no surrender, because compromise means surrender, and either means arant cowardice to me whose hopes rise above the plane of mere personal and political aggrandizement."

SOUTH CAROLINA DEMOCRATS HOLD STATEWIDE PRIMARY

(Associated Press Telegram)
 Columbia, S. C. Aug. 25.—Democrats of South Carolina today are holding a primary to nominate candidates for governor, United States senator, congress and state offices. Decisive action by the primary is equivalent to election. Seeking the senatorial nomination are Governor Cecil L. Blease, Senator Ellison D. Smith, D. Jennings and W. P. Pollock. There are eleven candidates for Governor.

All seven members of congress are seeking renomination. A. F. Lever, in the Seventh district being the only representative who is unopposed.

MICHIGAN ALSO IS HOLDING ITS FIRST PRIMARIES.

(Associated Press Telegram)
 Detroit, Aug. 25.—A primary election was held in Michigan today for the selection of candidates for governor, lieutenant governor, con-

gressmen and members of the state legislature. Municipal and county elections were also held in several cities and counties, including Detroit. The United States senatorship was not voted on.

The campaign for the gubernatorial nomination on the Republican ticket has been hard fought with five candidates in the field. They are former Governor Charles S. Osborn, of Sault Ste. Marie; Alex. J. Groesbeck of Detroit; Frederick C. Martindale of Detroit; George E. Ellis of Grand Rapids and William S. Linton of Saginaw. Governor Woodbridge N. Ferris is unopposed for the Democratic nomination. Henry R. Pattengill is the only Progressive candidate.

THREE PARTIES HOLD COUNCILS IN TOPEKA, KANS.

(Associated Press Telegram)
 Topeka, Kans., Aug. 25.—Party councils of the Republicans and Progressives were held here today. It was thought likely both would declare for national woman suffrage and national prohibition.

DEMOCRATIC STATE CONVENTION IS HELD.

(Associated Press Telegram)
 Jefferson City, Mo., Aug. 25.—Revision of the election laws of Missouri and radical changes in criminal and civil procedure had strong advocates among the delegates to the Democratic state convention scheduled to meet here today to draft a platform for the fall elections.

MISSOURI MOOSES WANT NO ALLIANCE.

(Associated Press Telegram)
 Kansas City, Mo., Aug. 25.—Loyalty to the party was to be reaffirmed at the Progressive state convention to be held here late today, according to party leaders.

Delegates seemed almost unanimous in the declaration that there be no alliances with the Republicans.

DISAGREE UPON LOCAL OPTION COUNTY UNIT.

(Associated Press Telegram)
 St. Louis, Aug. 25.—The proposed county unit local option law was the only proposal upon which dratters of a tentative Republican state platform said they failed to agree this morning. Leaders predicted, however, that the proposed law which is to be voted upon next November would either be left unmentioned or only mildly condemned at the Republican state convention here this afternoon.

CALIFORNIA IS VOTING TODAY ON 800 CANDIDATES

(Associated Press Telegram)
 San Francisco, Aug. 25.—Californians are voting at today's primary election to nominate nearly 800 candidates for various state offices, United States senator and congressional representatives. Chief interest centers in the selections of candidates to pit against Governor Hiram W. Johnson, unopposed Progressive candidate, in his fight to be returned to office in the general elections next November.

NEWLON ELUDES OFFICERS; OPERATION ON M'MILLEN MAY FAIL TO SAVE LIFE

At the Sanitarium Tuesday afternoon it was stated that there was little hope for McMillen's recovery, though there was little change in his condition since the operation Tuesday morning.

A telephone message from Police Chief Sheridan at 2 o'clock Tuesday afternoon brought the information that the officers were about to abandon the search for Newlon after spending nearly six hours beating the undergrowth which covers Flint Ridge.

The officers had followed the clue furnished them by a resident of the neighborhood who saw Newlon on the ridge about 10 o'clock.

Search for Ezra Newlon, 35, of Hopewell township who viciously assaulted Special Deputy Sheriff, Cary McMillen late Monday afternoon, was continued Tuesday morning.

A report received at the sheriff's office early Tuesday morning that Newlon had been seen in the vicinity of his home, resulted in a trip to that part of the country by Sheriff Slabaugh, Police Chief Sheridan and Patrolman Edward Hurlbath. A determined effort was made by the officers to apprehend the man who will be brought here now on two charges. One affidavit charging lunacy and another charging assault to kill.

Newlon's victim, Cary McMillen is in a critical condition at the Newark Sanitarium where he was removed early Monday evening. Dr. P. H. Cosner is the attending physician.

The assault of McMillen followed Newlon's determination not to be brought into court, according to the story told by Deputy Sheriff Rinehart Tuesday.

"We attempted to persuade Newlon to come with us peacefully," said Rinehart, "and even went so far as to get his half brother Mr. Dillon who lived nearby, to talk to him. He threatened all of us, and it was only when our resources had been exhausted that we attempted to force matters."

"McMillen threw off his hat and coat, picked up a chair and started up the steps of the narrow stairway. I followed close on his heels. McMillen's head had no sooner appeared above the second floor than I heard the blow and McMillen sank against the wall. He couldn't fall because the stairway was so narrow."

"He sank back into my arms and I started to carry him down stairs when Newlon struck him another blow. He was apparently lifeless when we placed him on the floor down stairs."

"We carried him into the yard and I left Dillon with the injured man while I drove to a neighbor's to telephone for a physician. I tried to get a doctor from Brownsville without success, thinking it would save time. I then called Dr. Cosner. When I returned to the Newlon home, the crazy man had disappeared and McMillen had returned to consciousness, though it was plain that he was in a serious condition."

When the officers reached the Newlon home the first time, Newlon was upstairs. His mother claimed he had gone to bed. She called to him twice but he declined to come down.

The officers secured the aid of Mr. Dillon, a half brother, who was said to be on friendly terms with the man. It was hoped that Dillon's influence would lead Newlon to a peaceful capitulation.

When Rinehart and Dillon returned to the Newlon home, the doors had been closed and locked. A child in the neighborhood climbed into the window and unlocked the kitchen door, giving the officers access to the home.

When Dillon appeared, Newlon again declared that he would not come down and that he would allow no one to come up after him.

The officers satisfied themselves that he had no fire arms before they attempted to go to the second floor. McMillen thought he had protected himself sufficiently when he placed the chair over his head. He was willing to take chances in a hand to

hand encounter on a fair basis, but didn't want to take the chance of being brained in the dark stairway.

Mr. Rinehart states that he understood that McMillen was experienced in dealing with insane persons, having served as an attendant at one of the state hospitals.

Dr. Cosner made a fast drive to the Newlon home where he made a hurried examination. Realizing that the man's condition was serious, help was secured and he was taken to the home of a neighbor where his wounds were dressed. He was removed to the Newark Sanitarium shortly after 4 o'clock.

The scene of the assault is about 3 miles from Newark. Newlon occupies a log house with his mother. This is the second affidavit in lunacy filed against Newlon in a year. Deputy Rinehart served the warrant on him on the previous occasion and while no violence was attempted by Newlon, the officer was compelled to use considerable strategy to take the man into custody.

At that time he had shot three times at a neighbor with whom he had trouble. Newlon also claimed that some one shot at him and was telling a neighbor of the trouble when the officer arrived. Officer Rinehart asked to see the wound, Newlon pointed to a cut on the side of his head which he claimed was made by a bullet.

While examining the wound, Rinehart grappled with the man and soon had him overpowered. He was searched and his pockets contained a hammer and other heavy weapons which he could have used with deadly effect.

He was strapped in a manner to prevent injury to himself and others and brought to Newark. He was confined in jail here for several days under observation and Drs. J. N. Wright and E. G. Towell, both now deceased, were the examining physicians and at that time they declared that while he was below normal in mentality, he could not be said to be insane. He was released.

"McMillen's condition is very serious. His recovery hinges on the result of this morning's operation," was the announcement made at the Newark Sanitarium at 10 o'clock Tuesday morning.

The attending physician, Dr. Cosner, assisted by Dr. D. M. Smith, Dr. C. J. Dillon and Dr. W. L. Jackson trepanned Tuesday morning. The depressed bones were lifted and the pressure of the brain relieved.

At noon Tuesday a telephone message from the vicinity of Newlon's home stated that he had been seen on Flint ridge making his way toward the Canal boat bank. The officers in the vicinity who had been searching for several hours, were notified by farmers in the vicinity and they started post haste to the ridge. They were warned to use care in approaching the man as it is not known what arms the man had secured after abandoning his home. It was claimed that he had no fire arms about the house yesterday.

Deputy Sheriff Rinehart states that Dillon told him that Newlon had in his room a piece of an old gun barrel and it is probable that this was the weapon he used in his assault on McMillen.

AGED EMPEROR NOT RESPONSIBLE RABBI'S OPINION

(ASSOCIATED PRESS TELEGRAM) New York, Aug. 25.—That it was Count Tisza and not the aged emperor Franz Joseph who is held responsible by the Austrians for the European war is the declaration made last night by Rabbi Mayer Kopstein to his congregation at Temple Adath Israel here while telling of his experiences as an American refugee in Vienna when Austria declared war on Serbia.

"I went to bed comfortably one night in Vienna," he said, "with plenty of resources at my command. On every lip that night was the name of Count Tisza. The people here informally that it was he who had written the ultimatum to Serbia and it was in the air that Germany could be counted upon to leap to Austria's aid, and that Russia would back up Serbia."

To Peel Off Freckles, Tanned or Muddy Skin
To remove tan, muddiness, freckles, blotches or any complexion difficulty, the best thing to do is to remove the skin itself. This is easily, painlessly and inexpensively done by the application of ordinary mercurized wax, procurable at any drug-store. The wax peels off the defective outer skin, a little each day, gradually bringing the cuts or second layer of skin to the surface. The pores are unclogged and the face breathes in the life-giving oxygen. The new skin is beautifully soft, clear and white, barring the healthy glow of youth.

RANGES

OF GERMAN GUNS WERE CORRECTED BY LOCAL LORRAINE SCHOOLMASTER.

And French Positions Were Disclosed by Flags Displayed by Excited People.

(ASSOCIATED PRESS TELEGRAM) Paris, Aug. 25.—A dispatch from Boulogne gives the recital of a French officer wounded in Lorraine. He sets forth how the Germans were aided by the local inhabitants who had prepared for every eventuality.

"The officials of the villages in Lorraine fell upon the necks of the French troops when they came into town and greeted them as saviors. No sooner had they done this than they would go to the edge of the village and hang out French flags, big white sheets, etc., to indicate to the enemy the exact position of the French soldiers. The mayor of one village tapped a French field telephone wire for the benefit of the enemy. A local schoolmaster corrected the range of the German guns by moving the hands of the church clock."

"At Dieuze, the French were persuaded that they would meet no opposition. Despite these assurances, however, they came upon concrete trenches filled with German troops and supported by quick firing guns. After they had stormed the trenches with the bayonet and were resting, they heard the strains of Chopin's funeral march played by a military band in the distance. This music served as a prelude to a storm of shells from a masked battery."

SPEAKER CLARK ISSUES WRITS TO GET ABSENTEES

(ASSOCIATED PRESS TELEGRAM) Washington, Aug. 25.—House leaders today were occupied with the task of rounding up absentee members in the effort to speed up legislation. Leader Underwood gave warning that he would move to have the sergeant-at-arms instructed to notify members now out of town to return immediately.

After the speaker had issued writs for the absentees, he declared they were "not treating the House right and not treating the people of the United States right by staying away, especially those who are lobbying about town, and are not home for any reason."

Leader Underwood said some members had been detained in connection with campaigns but that "some have been neglecting their duties."

POLICE RESERVES DISPERSED CROWD ANGRY DEPOSITORS

(ASSOCIATED PRESS TELEGRAM) New York, Aug. 25.—Police reserves were called out today when Attorney Whitman's office was stormed by 300 men and women from the East Side, depositors in the private bank of Adolf Mandel, recently closed by the banking department. The crowd literally demanding that the take criminal action against the bank's proprietors.

Elevator men and other attendants at the Criminal Courts building were unable to check them and it took the police reserves to drive them back to the street.
